Good Afternoon,

Please see the attached SWM DEQ Plan Approval Letter for the above referenced project. The DEQ approved electronic plan will be provided to you through DEQ's file sharing program, VITAShare under a separate email. Let me know if you have any issues accessing them.

Timothy Fletcher is the DEQ BRRO Stormwater Manager who will assign a DEQ inspector to this project during construction. Please notify him at least one (1) week prior to the pre-construction meeting. Also, please notify the inspector at least one (1) week prior to the initiation of land-disturbing activities, as they will be inspecting the project to determine compliance with the approved plans.

Timothy Fletcher can be contacted at Timothy.Fletcher@deq.virginia.gov

Please let us know if you have any questions.

Respectfully,

Sujata Poudel

Please note, DEQ's [Permitting Enhancement and Evaluation Platform \(PEEP\)](#) allows you to track the process and status of permit applications/approval requests. The system tracks tasks for each party involved including DEQ staff, other regulatory agencies (if applicable), applicants, and agents. Please note that applicants and agents will receive reminders/notifications for upcoming or overdue tasks that require their actions. Please check out the [PEEP information page](#) for more details. You do not have to login into PEEP. If you have any questions about PEEP please reach out to your project manager.
